TECHNEX'26

13 MAR- 15 MAR 2026

Overview

BetScript is a unique competition where strategy meets technology, held as part of the annual techno-management fest, Technex '26, at IIT (BHU) Varanasi. Participants are challenged to design and upload their own poker-playing bots to compete in a virtual environment. The event tests coding skills and tactical gameplay, requiring bots to navigate rounds of bluffing, betting, and chip accumulation.

Eligibility

- Team Size: 1–3 members.
- Participant Status: Open to students.
- Registration: Must register at technex website and the Unstop Opportunity page.

Timeline

- **Round 1 :** Feb 15th - Feb 22nd
- **Round 2 :** Feb 22nd - Feb 28th
- **Round 3 :** March 15th

Problem Statements

Round 1: Online Qualifying Round

- Format: Online.
- Objective: Participants must code and upload a poker-playing bot.
- Gameplay: Bots compete in a virtual poker room starting with a fixed number of chips.

Goal: Accumulate chips to finish in the top percentile or meet a specific qualification threshold.

Round 2: Online Round

- **Format:** Onilne
- **Objective:** Qualifiers must upload/deploy their bots online
- **Gameplay:** A structured tournament format to determine chip dominance among the finalists.

Submission Requirements & Deliverables

- **Bot Upload:** Bots must be uploaded to the designated platform for Round 1 and re-uploaded/refined on-site for Round 2.
- **Platform:** Details regarding the specific platform and API constraints are provided on the registration/Unstop page.

Round 3: On-site Presentation

Participants need to present their strategies offline in front of a panel of judges

Event Managers: Pratyush Sinha (MnC 3rd year), Naitik Agrawal (MnC 3rd year)
